

Ras Al Khaimah, February 2010

Bab Al Bahr Project Status Information

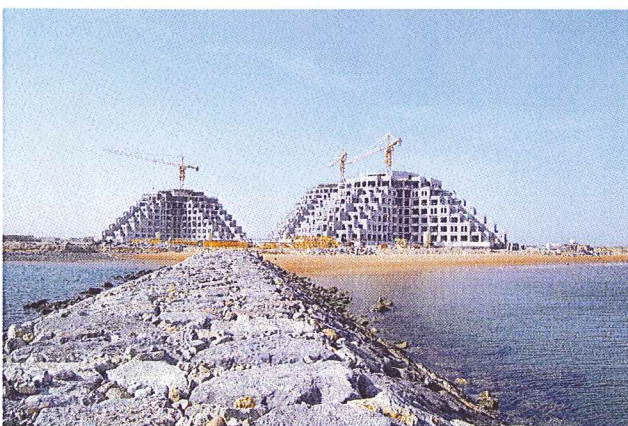

Dear Valued Customer,

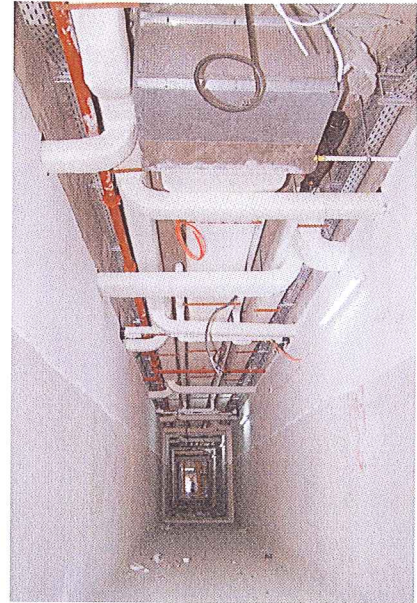

May 2010 bring you happiness and peace, and the strength and courage to follow your dreams.

We are proud to let you know that all the interior works have started at Bab Al Bahr. Plastic clearance – electrical and mechanical is at 70%, cable tray installation is at 90%, cable pulling (smoke detectors) are at 80%, high level drainage pipe installations are at 40% and fire pressure test is under preparation.

As you can see from the images attached, Bab Al Bahr has started its final touches as reality takes shape.

And finally after all the mentioned above, we are also witnessing the start of the decoration for the external structure of the building.

We hope we have kept you fully informed on your beautiful beachfront residence and hope to see you soon.

Yours sincerely,

Ghassan Youssef
Managing Director

a fresh approach to development
